 Lloyd's Register of Quality Assurance Limited

Trusted. For a Reason.

The Finns are a tough breed. High up North, surrounded by snow-covered forests and frozen lakes, you need to be resilient and determined to go on. This is reflected in the way we build our tire chains.

Over 100 years of development and that Finnish resilience results in chains that are as dependable and durable as the people that built them. Tough, resilient and dependable.

We value the performance of our equipment and its life. Get caught out in the Finnish wilderness with anything less, it's not worth thinking about.

FORESTRY CHAINS

Twist 16 SD

Single Diamond chain for smaller skidders, with 5/8" (16 mm) twisted chain providing excellent grip and good self-cleaning.

Craftec 16

Perfect chain when self-cleaning is needed. Craftec 16 is the ideal choice for smaller skidders.

Matti W 16 2T

Matti W 16 2T is a standard Double Diamond chain for heavy use. Good grip and self-cleaning. Recommended for medium-sized and large forwarders and harvesters.

Matti W 19 2N

Heavy duty chain with 3/4" (19mm) chain links. A real all-season tire chain for L- and XL-sized skidders. Excellent traction in mud and snow.

FORESTRY CHAINS

The Original U-Grip

U-Grip 19 & 22 1D

Single Diamond skidder chain with 3/4" (19mm) or 7/8" (22mm) chain and U-studs welded under the chain link. Excellent grip with long service life.

U-Grip 19 & 22 2D

Double Diamond skidder chain with 3/4" (19mm) or 7/8" (22mm) chain and U-studs welded under the chain link. Excellent grip with long service life and tire protection.

Super Dozer

Super Dozer is a heavy lug ring chain, which provides traction and tire protection for the largest, hardest working skidders.
